BURLINGTON

LE ROCCE SEDIMENTARIE INCONTRANO L'ALTA TECNOLOGIA.

Una linea di pietre dal look ricercato si arricchisce di nuovi toni moderni e luminosi, anche in versione lappata, e di un decoro tridimensionale per ambienti unici e personalizzati. La naturalezza della pietra sedimentaria trova il valore tecnico e la resistenza del gres porcellanato colorato in massa, affidabile e resistente in ogni applicazione.

SEDIMENTARY ROCKS MEET HIGH TECHNOLOGY.

A line of stones with a refined look, now enriched with bright, modern new hues, also available in a honed version, and a three-dimensional pattern for creating unique custom looks. The naturalness of sedimentary stone encounters the technical qualities and strength of through-coloured porcelain, dependable and strong for all kinds of applications.
